

**TerraPro Solutions**  
**Renewable Energy Experts - *Developing the energy for life!***

**TerraPro Solutions Boilerplate:**

TerraPro Solutions is a leading power and energy project development consultancy. The company has generated over 25 GWs in solar, wind, and energy storage. With a total financed value of over \$25 billion, TerraPro Solutions is a top development consultancy in the renewables and power generation sector. TerraPro is recognized for its rigorous risk assessment and transaction support from early-stage fatal flaw analysis through closing. With decades of real-world knowledge to continually assess and mitigate risk, we ensure that all legal requirements and project milestones are met.

**Best Practices for Risk Analysis and Risk Mitigation - Service Offerings:**

- Leasing And Site Control
- Fatal Flaw Analysis
- Land Due Diligence
- Transmission And Right-Of-Way Due Diligence
- Title Due Diligence
- Title Curative
- Mineral And Railroad Consulting
- ALTA Survey Review
- Financial Closing Support

**Official Bio Kimberlee Centera, CEO, TerraPro Solutions:**

Kimberlee Centera is a leading risk management expert for the development and financing of utility-scale wind, solar, storage, data center and transmission line projects. A pioneer in renewable energy project development with real-world knowledge to identify, manage and mitigate risk. Her expertise in engaging stakeholders in the analysis and resolution of legal issues consistently delivers positive results on complex high-value projects.

Kimberlee is widely recognized for advancing leadership excellence and inclusive leadership across the industries shaping the energy transition. She is a contributor to North American Clean Energy and POWER Magazine, a guest on leading podcasts, and a frequent presenter at global events for renewable energy professionals. She serves on the board of Women of Renewable Industries and Sustainable Energy (WRISE), she is a member of Women in Cleantech and Sustainability (WCS), and a mentor for the Women in Wind Global Leadership Program. **Article/Interview Tips:**

- Why front-end risk assessment is critical to project viability.
- Why land control determines the success or failure of a deal.
- Why ownership and title complexity are often underestimated.
- How environmental site risks impact development.
- How to manage due diligence under time constraints.
- The devil is in the details when managing inherited projects.
- How data centers are impacting the power sector.

**Sample Interview Questions:**

- Kimberlee, how did you enter the renewable energy industry?
- How would you describe what you do?
- What are some of the risks involved in developing energy projects?
- At what stage do you get involved in a project?
- Are the regulations different from state to state?
- Does TerraPro Solutions work on projects throughout the U.S.?
- Have you worked on energy projects outside the U.S.?
- What are the biggest challenges faced by renewable energy developers?
- How does TerraPro Solutions guide its clients through the various stages of due diligence?
- Does TerraPro Solutions supply turn-key services for an energy developer?
- What is the future of renewable energy within the U.S.?

**Speaker Introduction:**

It gives me immense pleasure to introduce our speaker Kimberlee Centera, CEO and founder of TerraPro Solutions. She is an industry pioneer, a leader in the development of renewable energy projects and a champion of women in renewables and the power industry. Kimberlee began her career in renewables over 35 years ago at SeaWest Windpower. Today, she oversees an exceptional team of professionals who provide turnkey project solutions for utility scale energy project developers.
