SAN DIEGO, Nov. 7, 2019 /PRNewswire-PRWeb/ -- An ALTA Land Title Survey is a comprehensive boundary survey that adheres to the national standards adopted by the American Land Title Association and National Society of Professional Surveyors. ALTA Surveys

depict parcel boundaries, improvements, easements, rights-of-way and other elements that may impact land ownership.

TerraPro Solutions team of experts, including an attorney specializing in title research and examination, reviews ALTA Surveys to ensure that the elements are accurately mapped and clearly discerned. With over \$1.5 billion in fourth quarter closings currently in progress, the company possesses a proven history of knowledge and proficiency in addressing the requirements of lenders, investors, insurers and developers.

TerraPro has the expertise to complete ALTA Surveys and the licenses to survey in any state. With well over 100 ALTA Surveys completed across the USA, TerraPro has the professional knowledge to ensure the success of the project.

TerraPro Solutions has the expertise to complete ALTA Surveys and the licenses to survey in any state," states Rick Haglund, director of business development. "Typically we can mobilize our team within two weeks of notice to proceed and depending upon the size of the project, we can usually deliver the final ALTA Survey within eight weeks on most projects."

With well over 100 ALTA Surveys completed across the USA, TerraPro has the professional knowledge to ensure the success of the project. By providing the title examining, curative work, and lease review along with the ALTA Surveys, TerraPro's team identifies and mitigates potential issues that can delay the process. This unique methodology expedites closings and saves valuable time and money.
